Additional Degrees

J.D. '75

Harvard Law School

Major Personal Events over the past 25 years : May 1994 marks my 25th anniversary with my wife. We were married in the MIT chapel on May 10, 1969. I am a Managing Partner at Fish & Richardson, a law firm that had 13 attorneys at a Boston office when I started and which I helped expand to over 100 professionals in offices across the country. My professional life has centered around complex patent litigation in the Federal Courts.

1969

Current Job Title/Occupation Senior Partner/Fish & Richardson--I am an attorney at a law firm which specializes in intellectual property matters.

Career History: After a brief stint as a Senior Geotechnical Engineer with Stone & Webster, I switched careers, combining my engineering background and law degree as an attorney specializing in high technology law and particularly patent litigation.

1994

Volunteer Activities, Hobbies, & Interests : I let off steam

through athletics, and in particular try to stay in condition to perform respectably in middle distance triathlons, i.e., without drowning myself or killing myself on the bike leg (see picture).

1969

Major Personal Events over the past 25 years

- o Getting married; having 2 daughters.
- o A frustrating career that keeps turning in ways different than I could have ever imagined.
- o Reaching VP level in 2 companies by age 32 only to see both companies crumble away.
- o Death of my cousin at age 54.
- o Alana accepted to dance with the Boston Ballet.
- o Aurianne accepted as an engineer at Cornell.
- o Decision to separate from MaryJoan, easily one of the best human beings I'll ever know, after 24 years and start life over.
- o Meeting Stefania Calabi (MIT, Class of '76).

1994

Job

Coincident with writing this, I will be taking a newly created position to direct the effort to develop an advanced minimally invasive surgical system at Lahey Clinic.

Life and the Universe

My early career was a migration from job to long-houred job looking for some place with equipment, funding and opportunity. Recently, I had dinner with the top guys at my current firm, a former MIT professor, an MIT PhD, a Stanford PhD, and a CalTech PhD, to discuss the unrelenting corporate hard times. They were telling me how tough a life consulting engineering is and that I'd better resign myself to a regular diet of rejected proposals and 60 hour weeks. This can't be the culmination of education at the top engineering schools in the world! This can't be why we went to MIT!

Spouse's Name Linda Enomoto-Russell

Children's Names and Ages Jared M.M. Russell (12 years) and
Timothy M.Y. Russell (10 years)

Additional Degrees Ph.D. in Materials Science and Engineering,
University of Utah, 1977

Major Personal Events over the past 25 years

In August, 1969 I married Penny Lesser (Wellesley, '70). We were divorced in April, 1975 while I was in graduate school. Fortunately, I was lucky and met Linda Enomoto at the University of Utah. We were married in June, 1977. We now have two boys, Jared (age 12) and Timothy (age 10). We recently celebrated our 16th anniversary, and are looking forward to many more.

Current Job Title/Occupation Vice President, Research & Development,
Chemical Biosensors, Inc., Beaverton, Oregon

Career History

After graduation I went to work for Exxon Research & Engineering, doing polymer research and environmental engineering projects. I left in 1973 to pursue a doctorate in Materials Science at the University of Utah. I then worked for Kodak Research for seven years before coming to Oregon to seek my fortune, first with Optical Data, inc. and then with Chemical Biosensors.

Volunteer Activities, Hobbies, & Interests

I am an elder in our Presbyterian church, coach soccer and play golf.

Most Vivid MIT Memories

The Great Court on clear winter days the long walk to Walker Memorial for exams-and the longer one back, Moratorium Day on Boston Commons and the excitement that never let up.

Comment on Life and the Universe

We were lucky to attend MIT at a time when our parents could afford to send us there. I only hope that our children and grandchildren are so lucky!
