Comment on Life and the Universe

The more I think about it, the more amazing it seems. How could a random series of events bring us to where now are? How inconsequential we are in the overall scheme of the universe.

Comment on Life and the Universe

Name: Alan J. Slobodnik

Course/Degree: Aero & Astro, SB

Address: 155 Wakefield Street  
Reading, Massachusetts 01867

Living Group: Burton House

Home: (617) 944-7031 Office: (617) 944-7741 Fax: (617) 944-3534  
E-Mail: 76116.3161@compuserve.com

Spouse's Name: Deborah Lipman Slobodnik  
Children's Names and Ages: Sarah, 12, and Michael, 9

Additional Degrees: MSSS, 5/76, Boston University

My personal relationships have been very fulfilling. In the same month as MIT graduation, I married my high school sweetheart, Deborah Lipman. It is difficult to describe what her love, support, and intellectual challenge have meant to me over the years. I feel very fortunate that my wife and children, Sarah and Michael, are my best friends. Getting to know our children has changed me as much as it has "raised" them—each day is a discovery waiting to evolve. It was also personal relationships that have kept us in the Boston area for all these years. We have a core group of fifteen to twenty friends, many of whom we have known more than twenty years. That kind of stability and longevity is hard to duplicate.

Career fulfillment has also been a big part of my life. While I appreciated the scientific method which shaped my view of the world, shortly after graduation I knew the engineering life was not for me. From my exposure to human systems at the Sloan School, I knew I wanted to apply the systems thinking I had learned to human systems. I debated between careers of organizational consultant and family therapist, finally deciding to "major" in the latter, while "minoring" in the former. During my twenty-year career as a family systems therapist, I maintained a highly successful private practice, was a core faculty member and Director of a nationally known and accredited family therapy institute, and was a sought after presenter. Meanwhile, my wife embarked on the organizational consulting career I had also considered, and pioneered bringing systems theory into organizational work on an applications and implementation level. Things came full circle last year as we realized our lifelong dream of working together formally. We joined forces to expand Debbie's organizational consulting business and incorporated as Options Consulting, Inc. As we spend another Saturday night out talking shop, we laughingly wonder whether everyone has systems thinking as their hobby as well as their vocation.

Most Vivid MIT Memories

NOT BREAKING MY NECK (OR LOSING MY  
GLOVES) IN 2 GLOVE FIGHTS. BLEACHER SEATS  
FOR LAST 2 GAMES AT FENWAY IN 1967. GRIPE  
WEEK AND TECHNIQUE.

Comment on Life and the Universe

I USED TO BELIEVE THAT MAYBE I HADN'T  
LIVED MY WHOLE LIFE AT MIT, BUT I'VE  
DECIDED I WAS MISTAKEN. ALSO I CONTINUE  
TO BE AMAZED BY THE QUALITY OF MIT  
STUDENTS - WERE WE THAT SMART?
